

A Refreshingly New Medical Perspective is Here.

*Everything is about to get
a whole lot better for your practice.*

Proactive | Superior Health Outcomes | Dynamic

21st Clinical Applications for Age Management Medicine Conference

November 10-13, 2016

The Bellagio, Las Vegas, Nevada

Specially designed for

Physicians who are exploring this rewarding medical specialty
as well as experienced Age Management Medicine physicians

Inside the conference

It begins and ends with medical excellence. From the peer-reviewed presentations to the exhibit hall, you're guaranteed four days of transformative knowledge. Every lecture's content is designed to comply with and exceed ACCME's stringent standards. No wonder physicians give our conferences a big thumbs up, rating them among the best they've ever attended.

You & Age Management Medicine

The healthcare forecast continues to dim—more regulations, yet another restructuring of physician payments, less control over your practice, and on it goes. But not with Age Management Medicine. Practiced full or part time in a traditional or direct-pay model, you're firmly back in the driver's seat. Age Management Medicine's use of breakthrough strategies and proactive, evidence-based protocols —nutrition,

hormone balancing, exercise, stress management, precision medicine, emerging sciences, and other medical interventions—deliver life-changing health outcomes: optimized health with the ability to delay or halt degenerative aging.

Get the tools needed to add Age Management Medicine to your existing practice—it all happens at our conference. You even can learn how to become certified in the specialty of Age Management Medicine.

*This activity has been
approved for 26 AMA credits
plus Nursing & Pharmacy Credits*

Register now

Real change for your practice begins here. Register today and get ready for this insightful four-day event.

NEW! - Training & Certification for
Physicians/Healthcare Professionals
(see details inside)

Conference Events

(open to all attendees – non-CME)

Thursday, November 10th

7:00 am - 7:45 am

Compounds Used in Age Management Medicine

Presented by Joe Grasela, R.Ph.
(includes complimentary breakfast)
Non-CME symposium sponsored by
University Compounding Pharmacy

Noon - 1:00 pm

Telomeres and Telomerase Activation with TA-65MD – Science and Clinical Observations

Presented by Ron Rothenberg, M.D.
(includes complimentary lunch)
Non-CME symposium sponsored by
T.A. Sciences

Friday, November 11th

7:00 am - 7:45 am

How to Build a Strong Age Management Business by Implementing Medical Weight Loss into Your Practice

Presented by Dr. Kimball Lundahl, D.C.
(includes complimentary breakfast)
Non-CME symposium sponsored by
Healthy Habits

12:15 pm - 1:15 pm

Sub-Cutaneous Hormone Pellet Therapy - Alternative Medicine or an Alternative to Bad Medicine

Presented by Gary S. Donovitz, M.D.
(includes complimentary lunch)
Non-CME symposium sponsored by
BioTE® Medical

Saturday, November 12th

7:00 am - 7:45 am

Bacterial Communication and Redox Supplementation, a New Foundation for Longevity and Human Health

Presented by Zach Bush, M.D.
(includes complimentary breakfast)
Non-CME symposium sponsored by
Biomic Sciences

Discover Your Personal Whole Genome Sequence

At this conference we will be offering onsite blood draws for you to receive your personal results as a participant in our 2017 full-day track – Integrating Genomics Into Your Practice.

Join AMMG

AMMG invites you to support our vision and growth by joining us and becoming a professional member. Visit www.agemed.org to learn about the numerous membership benefits. Join via our website or the registration form in this brochure.

Exhibits / Conference Networking

This conference will feature a select number of quality companies - set in a relaxed, informal atmosphere - who offer valuable insight on products and services to enhance your practice. Although AMMG does not endorse these companies, we have selected and reviewed them carefully and thank them for their support of the Age Management Medicine Group.

“Terrific meeting, keep it up. I will definitely attend again” – G.I., M.D.

What is Age Management Medicine?

Age Management Medicine is a proactive, preventive approach focused on preservation of optimum human function and quality of life, making every effort to modulate the process of aging prior to the onset of degenerative aging. The basic tenets of Age Management Medicine are patient evaluation through extensive medical history, lifestyle assessment, physical examination and laboratory evaluation to establish personalized proactive treatment plans consisting of proper diet, exercise, stress management and appropriate medical interventions.

Who Should Attend

This timely conference is targeted to all healthcare practitioners having an interest in Age Management Medicine and a desire to learn how to implement these various procedures in their practice or healthcare setting. Attending will be physicians, researchers and health professionals, including nurses, physician assistants, nurse practitioners, pharmacists, dentists, chiropractors, psychologists and medical students.

About AMMG

It is the goal of the Age Management Medicine Group (AMMG) to

provide education and information on the specialty of Age Management Medicine to physicians and healthcare professionals through evidence-based, continuing medical education conferences, workshops, seminars, publications and Web media. The Group consists of leading industry healthcare professionals, physicians, practitioners, researchers, medical associations and providers of products and services.

Training & Certification for Physicians/Healthcare Professionals

Rewarding.
Comprehensive.
Academic.

The knowledge and tools you need to launch and advance a dynamic Age Management Medicine practice.

Training & Certification in Age Management Medicine is a multi-disciplinary course covering foundational principles and tools to make the practice of medicine rewarding again. It's an exceptional program, marked by its contributing experts—from a variety of medical fields, including hormones, nutrition, exercise, patient assessment and the use of 21st century clinical innovations, such as genetic testing and personalized medicine.

To stay current with the literature and medical breakthroughs, our evidence-based approach continues to evolve, ensuring you have the most significant, latest knowledge and scientific support to enhance your patients' quality of life.

Our best endorsement? Past participants who say our certification training is *“ethical, detailed, thorough, highly educational, challenging, and rewarding with a sense of accomplishment upon completion.”*

Certification in Age Management Medicine

- Continuing education credits for physicians, nurses, pharmacists
- Two-part curriculum—home study using age-management textbooks and videos of actual lectures given on selected topics, followed by two days of didactic lectures with participant interactions/discussions to advance core topics, taking them to the next level
- Broad-based theory and practice on cornerstone categories:
 - Patient Assessment Protocols
 - Hormonal Optimization and Therapies
 - Nutrition & Supplements
 - Exercise & Fitness
 - Motivating Patients
 - New and Emerging Therapies
- Real case studies/situations reviewed in problem-solving roundtable discussions
- Online exams done from your home/office

The benefits of certification:

- Deliver proactive, preventive medicine improving patient outcomes—optimizing health, delaying/offsetting age-related disease, helping patients enjoy a more productive, vibrant life
- Reignites your passion for medicine—building a practice with highly motivated patients and enjoying the personal satisfaction of guiding them to a new dimension of health
- Improves the physician-patient relationship—health and patient-centered approach, meaningful, attentive, quality time spent with each patient
- Helps you stay on top of research and treatments—engaging in ongoing educational opportunities and accessing solid science with globally accepted, evidence-based protocols

Learn more and discover a whole new way of practicing medicine.

Accreditation This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of *CMEsolutions* and AMMG. The *CMEsolutions* is accredited by the ACCME to provide continuing medical education for physicians.

The *CMEsolutions* designates this live activity for a maximum of 26 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The *CMEsolutions* is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. This program is approved for 26.0 contact hours (2.600 CEUs). ACPE Program Number: 0274-9999-16-012-L04-P

This activity has been submitted to the Western Multi-State Division for approval to award nursing contact hours. The Western Multi-State Division is an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

For more information regarding contact hours, please call Shirlene DeHart 520-544-2938

Clinical Applications for Age Management Medicine

Full Agenda, Faculty Biographies and additional session details can be found at www.AgeMed.org

Syllabus will be provided to attendees online for easier access

Thursday, November 10th – 4 Concurrent Pre-conference Tracks

Thursday Pre-Conference Track 1:

Telomere Biology: Applications for Clinical Practice

Telomeres are nucleoprotein structures found at the termini of linear eukaryotic chromosomes. They serve as a buffer against the end replication problem and protect chromosome ends from inappropriate DNA repair; thus, telomeres are essential for the maintenance of genome stability and continued cellular proliferation. Research has shown telomeres are an important part in the aging and disease process. This track will review the fundamentals of Telomere Biology, discuss considerations with lifestyle, stress, diet & exercise and the role that telomeres play in the disease process and how it can be applied to Age Management Medicine. Additionally, attendees will be offered the opportunity to participate in two key Telomere Lab Tests which will reveal not only the attendee's individual results but will be reviewed by faculty as a cohort study with those in the track participating.

TEST YOUR TELOMERES – for a limited time attendees will have the opportunity to have 2 key lab tests with individual results and as a part of a cohort study with other conference participants. Available only with this Track registration. Details at www.agemed.org. Participation limited so act fast!

Fundamentals of Telomere Biology

William H. Andrews, Ph.D.

President & CEO, Sierra Sciences

Making the Case: Why Telomeres ARE Important to the Aging Process

Joseph Raffaele, M.D.

Founder, Raffaele Medical, New York, NY

Telomere Measurement Technologies

Earl H. Eye, M.D., FAACP

Thursday Pre-Conference Track 2:

Clinical Lifestyle Modifications to Achieve Optimal Health

The leading causes of mortality and healthcare costs worldwide are chronic diseases resulting from lifestyle and environmental factors. The prevention of disorders caused by lifestyle factors such as poor nutrition, lack of physical activity and chronic stress are huge issues for Age Management physicians and one of their biggest challenges is dealing with patients who can be uninterested, unmotivated or uneducated on the negative health implications that poor lifestyle choices can bring. This track will attempt to provide clinicians with tools to communicate more effectively with their patients and provide them evidence based clinical treatment options to ultimately provide better healthcare and optimal patient health.

The Cortisol Meditation Connection

Thursday Pre-Conference Track 3: Office Based Aesthetics for the Age Management Clinician

In response to attendee requests for information on aesthetic protocols and treatments which are office based and can be done by non-board certified Age Management Clinicians either full time or as an adjunct to their existing practice, AMMG presents this track in conjunction with the American Academy of Microneedling. The decision not to accredit this track was made so that attendees could be provided with business tools as well as the science and medical information necessary to implement these procedures. The goal is not to make this track commercial but to give speakers in this niche area the leverage to openly discuss procedures and answer questions that could be severely restricted in an accredited environment.

In conjunction with the American Academy of Medical Microneedling

*Track is Non CME

Maximizing the Power of Microneedling

Marie Piantino, L.E.

*President, Aesthetic Education Group LLC
Founder, American Academy of Medical Microneedling*

Stem Cells for Aesthetics: What Are They? What Kinds Exist? What is their Biological Purpose?

Jordan R. Plews, Ph.D.

Chief Scientific Officer & Co-Founder, Xytogen Biotech

Optimizing Skin Health and Chemical Peels

CEO, Ayumetrix*

Putting This Aesthetic Information Together and Adding Office Based Aesthetics to Your Practice

Marie Piantino, L.E.

*President, Aesthetic Education Group LLC.
Founder, American Academy of Medical MicroNeedling*

Thursday Pre-Conference Track 4: Traumatic Brain Injury: A Clinical Approach to Diagnosis and Treatment

It is evident that the traditional approaches to Traumatic Brain Injury (TBI) and Post Traumatic Stress Disorder (PTSD) are not working. Just look at the Sunday sports page or listen to the American Heroes Network. We are losing more and more people every day to the devastating effects of depression, anger, rage and suicide. So, what is the medical community really doing, if anything? In 2004, Dr. Mark Gordon started working on the premise that trauma to the head and/or body can cause disruption of neurosteroid and hormone production via chemical pathways. Additionally, trauma creates an inflammatory environment in the body that affects the chemistry in the brain. The combination of hormonal disruption and inflammation are at the root cause of impairment in cognition and behavior. This track will take you through the medical literature to disclose the cause and effects of TBI on brain functioning. Case reviews will be presented showing laboratory testing, interpretation, treatment and outcomes.

In conjunction with the Warrior Angels Foundation, a 501(c)(3) non-profit Organization

A portion of the proceeds from this course will be donated to the Warrior Angels Foundation as they work towards their goal of providing personalized assessment and treatment for U.S. Military Service Members and Veterans who have sustained Traumatic Brain Injury (TBI) while in the line of duty.

Course Faculty

Mark L. Gordon, M.D.

*Medical Director, Millennium-TBI & The Millennium
Health Centers; Medical Director, CBS Studios
Clinical Professor, USC Keck School of Medicine,
Department of Family Medicine, Los Angeles, CA
Medical Director of Education,
Access Medical Laboratories, Jupiter, FL
Member, AMMG Conference Planning Committee,

The Bellagio, Las Vegas

For our November 2016 conference AMMG is particularly pleased to have secured the Bellagio luxury hotel and casino. Inspired by the Lake Como town of Bellagio in Italy, Bellagio is famed for its elegance. Contentment and opulence are the hallmarks of your Bellagio luxury hotel experience. A retreat unto themselves, the 3,933 Guest Rooms and Suites are an extension of the AAA Five Diamond Award-winning Las Vegas hotel. The front of the hotel features an eight-acre lake in which fountains perform a magnificent aquatic ballet. Inside, award-winning dining, sophisticated nightlife, a world-class art gallery, Cirque du Soleil's stunning performance of "O," a luxurious spa and upscale shopping add to the extraordinary experience.

The AMMG discounted room rate is \$221 per night. Call 702-693-7111 or 888-987-6667 or book online.
 NOTE: To receive our discounted rate you will need to mention that you are attending the Age Management Medicine (AMMG) Conference
